

Lesson 31: Verb + Preposition + -ing (Succeed in -ing / Insist on -ing)

Introduction to Verb + Preposition + -ing Forms in IT

"Hello and welcome to today's lesson. We will focus on using verbs followed by prepositions and '-ing' forms, specifically 'succeed in -ing' and 'insist on -ing,' within an IT context. These grammatical structures are used to describe actions in relation to certain verbs and their associated prepositions.

'Succeed in -ing' is used to convey successful completion of an action. For example, 'We succeeded in implementing the new software.' It emphasizes the achievement in the given activity.

'Insist on -ing' is used to express firm determination or demand in doing something. For instance, 'She insists on testing the program thoroughly.' It indicates a strong commitment to the action.

In IT, where actions are goal-oriented and often require persistence, how do you express success in your tasks or determination in your actions? Do these phrases help in conveying your experiences and efforts?"

Different Ways to Use Verb + Preposition + -ing in IT

"Using 'Succeed in -ing' for Achievements:

1. ****For Professional Achievements****: 'We succeeded in enhancing the system's security.' It signifies the accomplishment in an IT task.
2. ****For Personal Milestones****: 'I succeeded in completing my certification in network security.' It reflects personal achievement in learning or skill development.

Using 'Insist on -ing' for Firm Actions:

1. ****For Emphasizing Importance****: 'Our manager insists on updating the antivirus software regularly.' It shows the importance given to an action.
2. ****For Asserting Personal Determination****: 'I insist on reviewing all code personally.' It indicates strong personal commitment to a task.

In your IT work, how do these phrases assist you in expressing your achievements or determination? Are there situations where one phrase is more suitable than the other?"

Dialogue between IT Professionals

"Let's listen to a dialogue between two IT professionals, Raj and Sophie, to see how these verb forms are used:

****Raj****: *Sophie, I heard we finally succeeded in integrating the new database system.*

****Sophie****: *Yes, Raj. It was challenging, but we succeeded in making it fully operational.*

****Raj****: *That's great news. Also, I want to mention that our team leader insists on conducting weekly security checks.*

****Sophie****: *That's a good practice. He really insists on maintaining high security standards.*

****Raj****: *Absolutely. By the way, I have been working on a new project proposal and I'm trying to succeed in getting it approved by next week.*

****Sophie****: *Good luck! I know you've been insisting on developing that project for a while.*

*****Raj**:** Thanks. I think it can really benefit our department. And how are things going with the software update you were working on?*

*****Sophie**:** Well, I insisted on performing extensive testing before deployment, and it paid off. We succeeded in launching it without major issues.*

This conversation shows how Raj and Sophie use 'succeed in -ing' to talk about their accomplishments and 'insist on -ing' to describe their firm approach to certain tasks."

'Succeed in -ing' in IT Project Outcomes

"When discussing IT project outcomes, 'succeed in -ing' is often used to highlight successful completion. For example, 'We succeeded in reducing system downtime significantly.' It clearly communicates the achievement of a specific goal.

Reflect on your recent projects. How do you use 'succeed in -ing' to describe your successes or achievements?"

'Insist on -ing' in IT Best Practices

"In IT, certain best practices or standards often require firm adherence. 'Insist on -ing' is used to emphasize the importance of these practices. 'Our policy insists on encrypting all sensitive data.' It shows a strong commitment to a particular action or standard.

How do you use 'insist on -ing' to communicate about adherence to IT protocols or best practices?"

Enhancing IT Communication with Verb + Preposition + -ing Forms

"In IT, where tasks often require specific approaches and achieving goals is crucial, using 'Verb + Preposition + -ing' forms like 'succeed in -ing' and 'insist on -ing' can greatly enhance your communication. They allow you to clearly express your accomplishments and firm approaches to tasks, ensuring that your team understands the importance and success of various actions.

How do you plan to use these verb forms in your professional communication? In what situations do you find them particularly useful?"

The Practical Application of 'Succeed in -ing' and 'Insist on -ing' in IT

"Have you ever considered how the phrases 'succeed in -ing' and 'insist on -ing' can be applied in real-world IT situations? These constructions are not just about grammar; they play a significant role in how we convey our achievements and commitments. 'Succeed in -ing' is often used to express successful completion of IT projects, like 'We succeeded in deploying the new system ahead of schedule.' On the other hand, 'insist on -ing' is crucial when emphasizing the importance of specific actions or protocols, such as 'Our team insists on conducting thorough quality checks.'

In your professional IT experience, how often do you use these phrases? Do they help you in highlighting your team's successes or in underlining the importance of certain processes?"

'Succeed in -ing' in Project Reporting

"Consider the last time you had to report on a completed IT project. Using 'succeed in -ing' can powerfully convey the accomplishments of your team. For instance, 'We succeeded in optimizing the network's performance.' This not

only communicates the success but also instills a sense of pride and achievement among team members.

Reflect on your reporting style. How does integrating 'succeed in -ing' enhance the way you present your team's achievements?"

Personal Experience: The Impact of Correct Verb Usage

"As an online English teacher specializing in IT professionals, I recall a student who was preparing for an important project presentation. He struggled with how to express the team's determination to adhere to security protocols. We worked on using 'insist on -ing,' and he ended up saying, 'We insist on implementing the highest security standards.' This phrase significantly changed how his commitment was perceived, conveying a strong and unwavering dedication to security.

Think about your presentations or meetings. How has using the correct verb construction impacted the perception of your commitment or achievements?"

'Insist on -ing' in Upholding IT Standards

"In the IT field, maintaining certain standards and protocols is non-negotiable. Expressing this firm stance often involves 'insist on -ing.' For example, 'Our department insists on keeping all software up-to-date.' It emphasizes the non-negotiable nature of these actions.

How do you communicate your non-negotiable standards and practices in IT? Do you find that using 'insist on -ing' effectively conveys the seriousness and importance you attribute to these standards?"

'Succeed in -ing' for Career Advancement

"When discussing career advancement or professional development in IT, 'succeed in -ing' can be a key phrase. It allows you to express your accomplishments in a way that highlights your capabilities and potential. 'I succeeded in leading a major project that increased company revenue.' Such statements can be impactful in performance reviews or job interviews.

How do you use 'succeed in -ing' to showcase your professional growth and accomplishments? Can you recall a time when this phrase positively influenced your career progression?"

'Insist on -ing' in Team Management

"In managing IT teams, leaders often need to insist on certain practices to ensure efficiency and quality. 'I insist on reviewing all code before it's deployed.' This not only communicates your commitment to quality but also sets a clear standard for your team.

In your role, how do you use 'insist on -ing' to establish clear guidelines and expectations for your team? Does it help in reinforcing important practices or behaviors?"

Enhancing Communication Skills with Verb + Preposition + -ing Forms

"In IT, where precision and clarity are paramount, mastering verb constructions like 'succeed in -ing' and 'insist on -ing' can greatly enhance your ability to communicate effectively. Whether it's sharing your team's successes, expressing your determination, or setting standards, these forms are crucial in your communication toolkit.

How do you plan to use these verb forms in your professional communication? Are there specific IT scenarios where you find one form more effective than the other?"

Applying Verb Constructions in Professional IT Scenarios

"Applying these verb constructions in professional IT scenarios is essential for effective communication. Whether discussing project outcomes, maintaining standards, managing teams, or highlighting personal achievements, using 'succeed in -ing' and 'insist on -ing' can significantly enhance the clarity and effectiveness of your communication.

In your day-to-day IT tasks, how will you apply what you've learned about these verb constructions? How can they enhance your ability to communicate effectively in various professional contexts?"
